and solutions

Symbolism of the organs and other
parts of the body

Practical guidelines to take your
own life in hand... How to deal with
emotions... and much more!

Christiane Beerlandt uses her incredible gift that allows her to penetrate the deepest mysteries of the human psyche. Her work has gained widespread appreciation among laypersons as well as professional health workers. More than 10 years of experience with this thick book has shown spectacular results in people who used the texts for their personal healing and evolution. Now, the English version of this health encyclopaedia has come out.
